ABOUT EVERLY'S ANGELS FOUNDATION

Everly's Angels Foundation is a 501©(3) nonprofit charity organization formed in 2015 dedicated to providing support and encouragement to special needs families, parents who receive a devastating pre/postnatal diagnosis, and families who experience infant loss. Everly's Angels Foundation celebrates every life...from babies who have never taken a single breath outside the womb to babies deemed "incompatible with life" to children and adults alike with varying degrees of special and unique abilities...because we know that *every life matters*.

Unfortunately, infant loss is a harsh reality and something that tends to be largely left from conversation. The truth is that in our society, the CDC reports that 23,000 infants are lost annually due to birth defects, preterm birth, Sudden Infant Death Syndrome (SIDS), maternal complications in pregnancy and injuries. In the U.S., for every 1000 babies born, 6 babies will die in their first year of life and 1% of pregnancies in the United States annually, roughly the same number as infant losses. Everly's Angels Foundation provides encouragement and support to these families who experience every parent's worst nightmare through our Everly After Memory Making Box program. Inside each box are items families will use to create priceless memories with their baby. Everly's Angels Foundation is dedicated to maximizing memory making and minimizing regrets for these bereaved parents.
